

Groovy Port Melbourne: now live it.

Posted on: 27/01/2018

Port Melbourne is the darling of the world's voted most liveable city

Located just 5km South-West from Melbourne's Central Business District, Port Melbourne is the darling of the world's voted most liveable city.

Once an industrial tavern filled marina, it is no surprise with its seaside location and warehouse grove that it has become a sought-after residential area.

Often in real estate trends when you have location, history, and character it is a formula for investment success.

Port Melbourne's Industrial past has revamped into a golden area filled with professionals, families with kids, and young professionals.

Everything from side streets, plate-dotted streets, grove of trees, perhaps paddleboard, city, and a vibrant atmosphere. Either way, there is no shortage of style in Port Melbourne.

It's quick location to the West Gate Freeway, and the Eastern Link is ideal for travel and commuting.

Bayside boutique shopping is in abundance as well as day spas, sporting clubs and family entertainment venues.

Next Address is very excited to be offering properties in the area. <https://nextaddress.com.au/property/unit-503-55-bay-street-port-melbourne-vic-3207-12709>
